632 622 152 than the dalu. This, it seems, is the kind of thing that is not discussed!

I must get the dalu relationship straight.

634 I asked if there was really a Radja of Riung, and he said yes. He is on the same level as, for example, Nageh. He said that there has been a radja there for a long time. The radja there now is a Ngada, but the folk there are mainly Manggarai. The houses there are mostly 342 178 the old rectangular type (not the new style rectangular type which is coming in now) of East Manggarai. The round house area is West Manggarai, although there are round houses in East Manggarai too.

I noted that one of the three round houses in Ndung is going to be torn down shortly. Thus the new type house, which came in only about ten years ago, is swiftly replacing the round ones everywhere. I asked if, since originally Ndung 622 was a branch kampong of Weol, the tuan tanah there was not less in prestige than the tuan tanah of Weol. He said that in theory they are the same, but indeed the tuan tanah of Weol was like the older sibling.

614 114 It seemed to me that the va'u here are very large (e.g., va'u Weol has over two gelarang), and I told him so. He agreed and in fact said that he has found that there is a still larger genealogical unit (I must ask about this; maybe it is like the isi that Arndt denies, but that Staveren says is found in Ngada above the voi there). On the way back to Weol I saw a buffalo 685 with one of its rear legs hanging nearly off with a deep cut behind the knee. I was shocked and asked how it had happened. He said that the buffalo had broken into someone's garden and that the owner of the garden, who had become angry, had crippled the buffalo. He said that this is done frequently here. I can see how a feud could be started in this way.
